Handsome and Substantial Improve The new house recently built by Gates &

Pohlman on the corner of College and Union streets, has been completed, and is without doubt, one of the handsomest and most substantial improvements erected since the war, and reflects great credit AMERICAN not to forget the printer. We displayed by this worthy and reliable firm. The building is three stories high, with an elegant cellur, and covered with what is known as the French roof, the first of the kind ever constructed in Nashville, The building throughout is most substantially built, the design being the work of Mr. Kiddell, one of our best architects. The brick work was done by O. S. Lessenr, the carpenters' work by E. W. Adams, the painting by Milton & Ruth, the plastering by Mr. Tankesley, the slate and tin work on the roof by McClure & Buck, and the carving necessary to the inside finish of the building by Mr. Palm, and the general finish in each department will speak for itself. The building has an open front, with magnificent glass plate imported from France. In the centre of the front wall in the second story i a magnificent clock, ordered and manu factured especially for the purpose, which was put in running order last night. The building is lit up at night, and this time piece will afford the same conveniences at night as in the day time.

Mesers, Gates & Pohlman are now cor fortably located in their new establishment, and for several days past have been busily engaged in fitting up their show cases and arranging their mammoth stock. Each of the numerous show cases against the walls are capped with handsomely carved cornices, and the counter cases are as hand some as a person wants to see. The store proper is finished with black walout, highly polished, and presents a very attractive appearance.

We may just add in conclusion that the large assortment of goods, consisting of silver ware, watches, diamonds, jewelry, etc., etc., corresponds with the magnificence of the building, and the firm may feel perfeetly secure in the belief that their enter, prise, both in the construction of a house so acceptable to their business and the extent of their stock will not so unrewarded Being fully prepared to receive their cus tomers, they desire to see a crowded house during the holiday gift season. We com mend the firm to the public at large.

New and Important Feature in Life Insurance.

In addition to the security offered b the Globe Mutual Life Insurance Company, of New York, having a large capital beside a deposit of one hundred thousand dollars at Albany, New York, also twenty thousand dollars deposit with the Comptroller of Tennessec, we call particular at tention to the following: By recent act of Legislature of the State of New York, the company is authorized to make special deposits with the Superintendent of the Insurance Department, and receive therefor registered policies bearing the seal of the department, and a certificate that the policy is issued by a pledge of public stocks or bonds under a special trust, created by an act of the Legislature, in fevor of the "Globe Mutual Life Insurance Company." This makes every registered policy as secore to the holder as a national bank note or a United States bond. We understand that Gen. A. E. Jackson has been appoint ed General Agent for Middle and East Tennessee and North Alabama, and will it a short time have agents in all the principal towes in his district, when the meriof this excellent company and the advantages it offers will be presented to the pub lic generally. When we state that such men as Gen. Jackson, Gen. Buckner and Admiral Semmes have become general agents of the Globe Mutual, the public reance that it is really first-class company.

Third Day-Morning Session. Clinic at the office of Dr. Morgan, con ducted by Dr. Redmon, of Louisville, Kentucky, and Dr. Jordan, of Huntsville, Alaama. The society was called to order at 10 o'clock, at the office of Dr. Chisholm. when on motion discussions on the subject of Microscopy were closed and the subject of Mechanical Dentistry upon which a very animated discussion arose upon the comparative merits of gold, rubber, continuou gum, in which Drs. Redmon, Morgan Chisholm and others participated. Dr. Love, of Louisville, introduced

he notice of the society Dr. McCleland's new base "Rose Pearl" or collodion, setting forth its merits, claiming main points of superiority for it. At this point the regular order of busi sees was suspended and a vote of thanks was tendered to the Nashville Medical Society for the courteous offer of their hall

to this society during its session : also a vote of thanks to the Union and American and Banner for courtesies extended. The order of business was resumed until half past one o'clock, when the Association adjourned to meet on Lookout Mountain,

July 20, 1869. This meeting was one of great interest the profession in attendance, and was largely contributed to by visiting member from the adjoining States. The utmost harmony and good feeling prevailing throughout.

Another Spielde.

Suicides just now are becoming more and more popular. There is hardly a day passes but what we have to chronicle some case of self-murder. Yesterday a man named Louis Phillipe Goe living on the Buena Vista Pike, near the residence of Judge Turner, fell a victim to the mania which now prevails to an alarming extent. From all we can learn about the matter, it apppears that Goe and wife did not get along well together, and were constantly quarseling. Be that, however, as it may, Goe determined to put as end to his life, and carried out his design most successfully. He took his life by shooting kimself with a pistol the ball penetrating the brain Coroner Norvell hearing of the death summoned a jury and proceeded to the place, where an inquest was held over the body, the jury from the evidence in the case, returning a verdict that he came to his death by his own hand, and without

any cause known to them The deceased was a native of Switzer land, and represented to be a fine looking and very intelligent man. On Thursday last he had entered into an agreement with Gen. J. T. Dunlap to take charge of his farm, and carry on an extensive dairy business. The papers were already drawn up, and were to have been signed yesterday by Mr. Goe, but he chose to forfeit the contract by suddenly closing up his affairs with this world.
